Session: 2019-2020 | Percentage: 91 .3%.

TRAINING & PROJECTS

Machine Learning | Internship

Project : BGMI Victory Predictions Using Machine Learning Classification Algorithms

Duration : 2 Months

Environment : Google Colab

Languages : Python

TeamSize : 4

This project aims to predict BGMI match victory using machine learning classification algorithms. By analyzing player statistics, in-game factors, and past performance, the model classifies whether a player or team is likely to win. This can help players to improve their gameplay and strategies.

Web Development | Portfolio

Project : Portfolio Website Using HTML, CSS & JavaScript

Duration : 1 Month

Environment : VS Code

Languages : HTML, CSS, JavaScript

TeamSize : 1

The main goal of this project was to build a personal portfolio website to display my work, skills, and experience. It serves as an online resume where others can learn more about me and the projects I've done

ACADEMIC ACHIEVEMENTS.

- Selected for National Means Cum Merit Scholarship (NMMS).

CERTIFICATIONS

- Completed a certification course on "Programming in Python" offered by Meta through Coursera.
- Completed certifications in HTML5, CSS3, and JavaScript through Infosys Springboard.
- Completed the NPTEL course on "Cloud Computing and Distributed Systems".

EXTRA CURRICULAR & CO-CURRICULAR ACTIVITIES

- Participated in coding contests and tech events to improve problem-solving and logical thinking.
- Participated in inter-college eSports tournaments.
